

HGV DRIVER

We are looking for a HGV Driver with Class 2 licence.

We think we are a pretty cool company to work for and we want happy, upbeat HGV drivers to join our awesome team.

You will be driving one of our recognisable waste trucks ranging from 7.5t to 26t on a scheduled collection round, as well as assisting with various tasks including the cleaning of your cab and bin deliveries. You will be expected to work bank holidays with the option to work overtime on Saturdays.

The work can be quite physically demanding, with bins weighing in excess of 100kg, so a good level of fitness would be required.

You'll benefit from good pay rates (initially £21,060 per annum based on 45-hour week over 5 days (rising to £22,230 (salary currently under review) after completion of probation), generous overtime rates, voluntary health scheme (contribution based), uniform and ongoing training, including Driver CPC. A helpful and friendly office team are there to support you where you would be offered a cuppa, cake and chat whenever you pop in!

We are looking for someone who is going to be a reliable, flexible and a committed worker on a long-term basis, and who wants to be respected for what they do and be part of a wider friendly, happy team.

We need you to have HGV Class 2 entitlement, a valid DQC (CPC card), a digital tachograph card and previous experience in the waste industry and multiple collection waste services would be an advantage.

To apply and become a valued member of our Company, please forward your CV via email to our HR Manager Mandy Burnett - mandy@alpha-logic.com or alternatively, telephone for an informal discussion and application form on 01752 850811.
